i graduated from university with a computer science degree many years ago when a degree meant something i was always interested in horse racing and was fascinated in solving the uk horse racing form puzzle i started my own computer business in my early 20 s where i made good money and travelled

across europe it was at this point in my life i decided to start a horse tipping business where i had weekly full page colour adverts in the racing post at 2k per advert and offices i left the running of this horse tipping business to staff who were responsible for all parts of the business while i concentrated on my computer business in my late 30 s around 1990 i decided to use my computer skills to computerise and model uk horse racing form using a database built with 10 years of detailed horse racing form it was over a period of 2 years that i concentrated my efforts on uk handicap races in conjunction with the betting exchange betfair this is where i believed maximum profit could be gained the computer model allowed me to process 100 s of handicap races per day and then formulate my system tweaking a horse s weight and bhb or or official rating i must confess this was a difficult puzzle to crack even with a computer program that i wrote to crunch the data i eventually found the correct weight and bhb rating for a horse based on it s last performances in handicap races this ebook outlines this system and can be manually applied easily using the racing post on the internet

introduction i have written a number of racing systems but this is the best one and i use this for most of my racing bets the key to this system is quality not quantity and looking for horses that tick all the four form variables lp or cr wd which i will explain later the system also only looks for horses that are carrying 8 pounds or more in weight which normally means a class drop or the horse has improved understand the system before placing bets i hope you enjoy it how the system works the system works for uk handicap and non handicap races but i tend to favour handicap races as the prices are larger i will concentrate only on handicap races in this book you will need access to the internet and the racing post website this is free racingpost com
